InfoArmor Employee Protection Solutions deliver low-cost and proactive identity and credit monitoring as well as corporate security intelligence and training. PrivacyArmor solutions defend employees, their families and companies from evolving cyber threats that cause data breaches and financial losses. PrivacyArmor strengthens security practices and helps mitigate cyber threats that could cause data breaches and financial loss.

PrivacyArmor Essential:

- Protects identity theft by actively monitoring and notifying employees of suspicious activity through single bureau credit monitoring by TransUnion
- Includes WalletArmor which can replace the contents of stolen or lost wallets
- Manages & preserves online reputations by monitoring common social accounts for everyone in the family and provides alerts on vulgarity, explicit content, violence and threats
- Stores online credentials with PasswordArmor
- Manages identity restoration. In the event you fall victim to identity theft or fraud, PrivacyAdvocate guides and manages the full recovery process of restoring credit, identity, accounts, and finances
- Reduces unwanted credit card solicitation
- Instant Inquiry Alerts: Participant alerts generated within minutes of activity captured on the TransUnion credit file
- Threshold Monitoring (coming 1/1/17): Real-time financial threshold monitoring and alerts allowing participants to set dollar amount limits on checking, savings and credit card accounts

PrivacyArmor Plus:

- Includes all features of PrivacyArmor with the addition of:
 - Tri-bureau credit monitoring
 - Expanded data sources & proactive alerts: Alerts for transactions that do not typically appear on a credit file such as: New account authorizations, address changes, new account openings
