

At bswift, we take great pride when employers entrust us to steward their benefits program and protect their data and employees' personal information. Backed by CVS Health and Aetna, our continual reinvestment in data protection and innovation helps ensure that your organization's health records and benefits strategy are safe. We know this is of the utmost importance to any successful company, which is why we are committed to keeping security at the top of our priority list. We lead our industry and are confident we will be the right partner to help protect your data and reputation today, and in the future. Here's how we will deliver on our commitment to you:

## Market-leading security

The combination of bswift and CVS Health delivers the stability and security of a Fortune 5 organization for you. bswift leverages an enterprise investment of several hundred million dollars annually in global security<sup>1</sup>, the digital customer experience and health care supply chain integration to help deliver market leading services to our clients in a secure manner. While enhancing your fundamental benefits administration delivery, you will also have access to future innovation that is focused on improving healthcare experiences and outcomes for your employees.

bswift's overall security framework goes above and beyond today's benefits administration industry standards. We adhere to the security controls required by our parent company and our clients are protected by in-house resources and a world class cybersecurity program.<sup>1</sup>

bswift also uses an independent third party, SecurityScorecard, to continually assess our platform against 10 cybersecurity areas. Recently, bswift received an overall score of 96 out of 100 and was the most secure ranked benefits administrator. Additionally, with an A rating, bswift is 5.4 times less likely to experience a security event compared to providers with an overall score of C, D or F. We feel that our stability and security is a critical advantage and a requirement for your evaluation.<sup>2</sup>
