

# A Private Health Insurance Exchange

## WHAT IS HEALTHPASS NEW YORK?

A private insurance exchange since 1999 that provides companies in the New York metropolitan area with affordable and accessible group health insurance and other benefit coverages. As part of an exchange, employees have the ability to choose from health insurance and benefit plans that fit their needs and budget from an ever-growing range of choices. Our exchange allows employees to pick from a wide range of insurance carriers, robust provider networks, all four metal levels and specific plan types.

## HEALTHPASS FOR YOUR BUSINESS

The administration is streamlined and easy with HealthPass. There's one group set-up and one employee enrollment form. Groups receive one invoice from us and write one check to us! The HealthPass Online Portal (HOP) allows group administrators and employees access to review their accounts, process enrollments and make administrative changes.

HealthPass will administer COBRA and offer an initial Section 125 POP Kit at no additional cost to the employer. Our members benefit from our dedicated Client Services team, as well as a health advocacy service.

HealthPass is available to companies with 1-100 full-time equivalent employees. Companies must be located in the five boroughs of NYC, Long Island, Westchester, Rockland, Orange, Putnam, Dutchess, Ulster or Sullivan counties to be eligible.

## HEALTHPASS BENEFITS

**Employees appreciate being included in the selection of their insurance and benefit options. They are able to choose from:**
