In today's world of online shopping, using public Wi-Fi and giving out Social Security numbers as a form of ID, our personal information can be exposed. Identity theft is America's fastest growing crime. Unfortunately, free credit monitoring simply alerts you to credit score changes. LifeLock not only has proprietary technology to detect a variety of identity threats, if you do have an ID problem, our U.S.-based team of specialists can help fix it. That's why it pays to protect with the best.

### Benefit Elite:

LifeLock Benefit Elite protection is aimed squarely at what matters to employees — helping protect their identities and helping protect their nest eggs. While most employees have a 401 (k), many may set it and forget it — which means they could miss important cues that may indicate potential fraud. LifeLock Benefit Elite protection helps detect potential fraud and brings it to the attention of employees through alerts with the company's network via email, text or phone.† Available only through employers, LifeLock Benefit Elite protection helps protect 401 (k) and other investment accounts from fraudulent withdrawals and balance transfers. LifeLock also searches over a trillion data points every day for potential threats to its members' personal identity, including suspicious uses of name, address, phone number, birth date, and Social Security number to obtain loans, credit and services, or to commit crimes. If an employee becomes a victim of identity theft while a LifeLock member, LifeLock will spend up to \$1 million to hire the necessary lawyers, accountants and investigators to help with recovery.‡

### Ultimate Plus™:

Ultimate Plus™ plan includes all features of Benefit Elite plus a lot more. Your bank accounts and credit are a gold mine for identity thieves. LifeLock Ultimate Plus™ identity theft protection gives you peace of mind knowing you have LifeLock's most comprehensive identity theft protection. Enhanced services include alerts for new bank account applications, attempts to take over existing accounts, online credit reports and credit scores.† You'll also enjoy the convenience of priority access to U.S.-based Identity Protection Agents.

No one can prevent all identity theft.

A phone number is required when enrolling in either plan.

† LifeLock does not monitor all transactions at all businesses.

\*\* Children under the age of 18 will receive a product designed specifically for minors, LifeLock Junior service. Enrollment in LifeLock service is limited to employees and their eligible dependents.

‡ Service Guarantee benefits for State of New York members are provided under a Master Insurance Policy issued by State National Insurance Company.
